“ I love you so much Tia! I met you in intermediate, 8th grade. You always made me laugh with something so funny you'd say.... and in High school, we would constantly talk about our weekend dramas, the latest deals with whatever boy, just walk around school and laugh.. I miss you so much baby girl. You're always on my mind. ??? Hope to visit you soon again!!

“ OMG I remember when she first moved next to us in Kunia. We had great times together. I don't ever remember a dull moment with her. She always made it a fun day.

“ Lexi again,
I remember how we used to always mess around && pull each others hair && then laugh about it later. I remember how you used to stand so weird by locking your knees & you said it was comfortable. I remember how you would always tell me not to be so "scary" && to just do things when I wanted to. I love you Tia. Paris and I miss you a lot.

“ I remember at Highlands I had just moved schools and Tia was one of the first people to make friends with me. She was very outspoken and funny and extremely boy crazy ! That was one of the many things we had in common. She was never afraid to speak her mind, and she never allowed anyone to ever walk over her. I think about her often. I just miss her. I love you Tia you crazy girl !
<3 Lexi
